Dear travellers,

Please note the following restrictions on your entry into Germany:

1. By reason of provisions issued by the federal states (Laender) pursuant to sections 32 sentence 1 and 30 (1) sentence 2 of the Protection against Infection Act (Infektionsschutzgesetz), persons entering the Federal Republic of Germany by land, sea or air, from a third country (all countries other than EU Member States, other than Iceland, the Principality of Liechtenstein, Norway, Switzerland and other than the United Kingdom of Great Britain and Northern Ireland), are required to proceed directly to their own home, or other suitable accommodation, immediately after their arrival and remain there exclusively for a period of 14 days after their entry into the country ('quarantine').

Moreover, they are required to contact the competent authority at their residence/place of stay in the Federal Republic of Germany (usually the local health office - Gesundheitsamt) without delay and to inform the latter of their entry into the country. The locally competent public health authority will supervise compliance with this order.

Your locally competent public health office (Gesundheitsamt) can be found online here: https://tools.rki.de/plztool/

2. Where provided for in the relevant ordinance of the federal state (Land) concerned, the procedure set out in No. 1 also applies to persons entering Germany after several days of staying in an EU Member State, in Iceland, Liechtenstein, Norway, Switzerland or in the United Kingdom of Great Britain and Northern Ireland if the data published online by the Robert Koch Institute (RKI) at https://www.rki.de/covid-19-europa show that the cumulative total of new infections in that country over the last seven days exceeds 50 cases per 100.000 population.

Excluded from these regulations are only such persons who are subject to an exemption provided for in the regulations issued by the federal state (Land) concerned and who display no symptoms of a COVID-19 infection according to the current criteria specified by the Robert Koch Institute.

With best regards and best wishes for your health

Your

Federal Ministry of Health
